Hydraulic system

Alamarin jet propulsion units

Alamarin Jet IO is a total control system for twin jet boats equipped with Jet-230 or Jet-288 units.

The boat can be operated with IO in all situations whether going straight and fast or slowly manoeuvring in tight spaces and docking.

A simple and intuitive solution makes manoeuvring easy. Affordable also for the smaller boats.

A hi-tech color display informs the user about system status. The IO is a safe system, with back-ups for every vital function.

Key Features

- Easy manoeuvrability
- No steering wheel required
- Simplified dashboard layout
- Informative display for system data
- Emergency stop capability
- Back-up system for emergency use

Go with the flow.
